Allowable Subject Matter

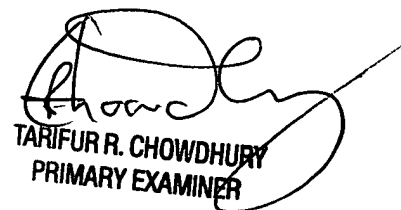

The following is an examiner's statement of reasons for allowance: applicant has amended the claims to recite that the first light-transmitting pixel electrode is formed on the light transmission portion and a major portion of the light reflection portion when viewed in a plan view. Applicant has cited Merriam-Webster's Online Dictionary as defining "major" to mean having attained a majority (i.e. over 50%). Because the best prior art of Kubo et al. (U.S. 6,295,109) did not teach forming the pixel electrode on greater than 50% of the light reflection portion when viewed in a plan view, it is not considered to be formed on a major portion of the light reflection portion when viewed in a plan view, as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Chung whose telephone number is (571) 272-2288. The examiner can normally be reached on Monday-Friday from 8:30 am to 5:00 pm.
